

It is our pleasure to invite you to this historically first event for dog lovers:

The Positive Reinforcement And Holistic Care Summer Dog Camp

with Kristyna Dostalkova and Katerina Paleckova

WHAT TO EXPECT FROM OUR EVENT?

Six days filled with dog training, socializing, learning about natural, holistic approach to canine health care and nutrition, but also trips and time spent in an amazing nature – lakes, forests, mountains of the Scandinavian North.

Positive Reinforcement Based Dog Training Panel – your instructor Kristyna Dostalkova from Czech Republic, owner of Psi Skola Vrtichvost dog school and an experienced SAR doghandler will work with you in groups and individually on anything you want to work on, from learning the basics of clicker training, to nose work, self control games, recalls, obedience, troubleshooting your training issues or behavior problems, regardless of your or your dog's level or skills.

You can learn more about Kristyna and her work at www.psiskolavrtichvost.net

Holistic Dog Care And Nutrition Panel – Holistic pet nutritionist and herbalist Katerina Paleckova from The Natural Way Animal Wellness Consulting will explain the importance and benefits of natural nutrition and will teach you which herbs to feed to your dogs, how to pick and store them and prepare remedies, and how you can generally use natural resources for the health care of your dogs.

You can learn more about Katerina, her kennels and nutrition and health care consulting at www.huskymusher.blogspot.com

Both panels will be combined with walks and trips to the beautiful wilderness surroundings of Kipp d'Amundsen Kennels, but we will also visit Sweden's highest waterfall, reindeer farm, and the numerous lakes and breathtaking viewpoints the area offers. A canoe trip on one of the mountain lakes is a special bonus!

The program is in the form of workshops, where all participants get the chance of a real hands on practice – be it dog training, herb picking or remedy preparation.

You will not only learn a lot, but will get a chance to pick and dry your own herbs from a pristine clean environment for your animals and you. Plus there will be materials and handouts with useful information, tips, recipes, and more.

This summer camp is truly one of it's kind as it not only combines two different dog related aspects - training and nutrition/health care - with a holiday in a fantastic nature for you. Wellness on all levels for all participants! :)

Accommodation:

Kipp d'Amundsen Kennels have a guest cabin available for 4-6 persons, one room for 3 persons and one room with double bed (1-2 persons). Bed sheets and pillows for the indoor accommodation are available, but it might be a good idea to bring your sleeping bag.

There is a big parking area with plenty of space for campers and a big grass area to put up tents on the property.

The first ones who book and pay, get the room they chose :)

There are two shared bathrooms with showers and toilets in the main house.

Your Dogs:

There is a fenced-in area for you to let your dogs run lose and play under your supervision and numerous walking trails and paths directly from the property for you to enjoy.

Cold and hot water are available for preparing your dogs's food and washing your dog dishes in the kennel's "Dog Kitchen".

It is not possible to let leave your dogs lose and without supervision other than the designated areas. Dogs are allowed at the cabin and in the 3-bed room, in crates.

In case of need of meat for raw-feeders, there is a possibility to purchase it on place.

Catering:

There are cooking facilities available with fridge and appliances at the cabin and in the main house for your convenience. Tea/coffee/non alcoholic cold beverages will be available during the program and the wrap up bonfire grilling will offer food for everyone.

Price:

3.900 SEK per participant with indoor accommodation or 3.400 SEK in your own tent/camper. Prices include all the activities of both panels - training sessions, herbal workshop, nutrition/health care lecture, all Q&S's, all dog camp materials and handouts, tea/coffee/non-alcoholic beverages during the program, canoe rental and the camp wrap-up bonfire grilling.

Additional family members: 850 SEK (indoor accommodation) or 550 SEK tent/camper. Price includes canoe trip and wrap up grilling party.

Registrations:

To be able to provide you all with a quality time, the amount of active participants is limited to only 10 persons (plus up to 2 family members), so we advise you to take advantage of the early opening of the registrations!

Send your registrations and questions by email to: consulting@kipdamundsen.com

As a subject of your email, please write „Summer Dog Camp 4.-9.8.“

Include your full name, email, mobile phone nr. and address.

Registrations open on December 1, 2014. Deadline for last registration and payment is May 31, 2015, or earlier if capacity is filled. You will receive an email confirmation of your registration within 48 hours since your registry, including payment information and details such as how to get here, what to bring, etc.

We are looking forward to seeing you and your canine friends in August!
